

COMPANY INFORMATION

American Computing Systems, Inc. (ACS) founded in 1985, has been creating leading vertical applications, providing consulting, customization services, implementation, training and support for almost 15 years for the ACCPAC International source products. ACCPAC® source products are the world's most widely installed modifiable accounting system with over 300,000 users worldwide.

Our technical staff supports several thousand users worldwide including end-users, independent consultants and solution providers of ACCPAC products.

Our add-on vertical products require our analysts and engineers to have a greater understanding of the ACCPAC products to effectively and seamlessly integrate our products successfully. ACS is the developer of the award winning UPOS® (Ultimate Point of Sale) for retailers, PIP (Physical Inventory with wireless scanners), Bar-Pro (integrated Bar Code support and printing) and SO-CCP (Sales Order Credit Card Processing) which enables integrated electronic credit card authorizations while entering a order in Order Entry.

Our products are installed throughout the US and worldwide including China, Saudi Arabia, Puerto Rico, Australia, Canada, to name a few. We support customers like the US Air Force, Military Base Supply stores - Industries for the Blind, University of Virginia, Texas Tech, Arlington Convention and Visitor Bureau to name a few – in addition to consultants, accounting firms and system integrators world-wide.

Here is what a few customers have said about our services:

“...we also got great technical help with some modifications that we needed to do.” C. Darryl Mattison, CDM Associates Inc. - WAC Consulting Group

“We're very appreciative of the great support you provide for us whenever we call.”
Patricia H., NS Technology Solutions

“...you are excellent” Joe - Victorian Heart Corp.

“your staff has been very helpful in the past...” Glen S. - Accucom Consulting

Our corporate office is located in Atlanta, GA, with remote offices in Conyers, GA and South Bend, IN.

With Award winning products and services, ACS is a previous winner of the ACCPAC Development Partner of the year award (1999) and was recently acknowledged as a Third Party Star by Accounting Technology magazine.

We are confident that our staff of experienced consultants and engineers will be able to solve your most complex problems and help your business realize a true ROI with your ACCPAC® Accounting system.
